Honest, Intimate, Real.

3 words that sum up what I do.

These are values I hold close to my heart, and crafting your precious memories with integrity fills me with tremendous joy & satisfaction.

Who you want is a *trusted friend*, who is
unobtrusive yet ever-present, to
perfectly capture those key moments, fleeting moments of raw
emotion that will be cherished for a lifetime.

Chapter One

Our Journey Together

Handcrafted Pictures Co. is a labor of love by Melbourne based wedding photographer Ernest Lew, who believes in taking the artisanal approach to image making.

Just like a sculptor or painter relies on his chisel or brush, I use a range of film & digital cameras to craft every image using the best tool for the occasion.

Our Journey Together

1. Wedding Day

Working tirelessly to create a visual narrative of your special day, I will arrive before you start getting ready, & leave when you exit the party.

Mingling with guests documenting unobtrusively with my camera as events of the day unfolds, capturing the joy & emotion of the ceremony, having fun getting bridal portraits on location.

Every shot lovingly created with utmost care.

Our Journey Together

2. Processing & Editing

The precious rolls of film are carefully packed & dispatched to a trusted professional photo lab to be developed and scanned by their passionate team, bringing to life the incredible depth & tones film is renowned for.

The best images will then be picked out and individually edited using the latest professional imaging tools, carefully adjusting the color palette and tastefully retouching skin to make the images stand out.

This careful & detailed process will take an estimated 6-8 weeks to complete, after which the digital proofs will be made available via an online gallery for your enjoyment.

Our Journey Together

3. Prints & Albums

The drafting & production of album & print orders start after the online delivery of image proofs.

For albums, a draft layout will be prepared & fine-tuned together, before being sent for production.

Printing & delivery time is estimated to take about 3-4 weeks.

Chapter Two

Your Investment

My wedding packages start from \$2,000, and because every wedding & couple have different needs, I'm more than happy to customize it to perfectly fit you.

I always encourage all my clients to safeguard their precious memories by ordering an album, just because it's the best way they can be enjoyed & experienced, a family heirloom to be cherished for generations.

Don't just leave them on a hard drive where it can be easily forgotten or accidentally wiped away.

Pre-wedding Get Together

Pre-wedding Get-together sessions take place before the hustle and bustle of the wedding starts, and a great opportunity for us to hangout and know each other better before the big day.

It allows you to relax & be comfortable in front of the camera, and be totally at ease on the wedding day.

Photos from this session will be great for save the dates, wedding invitations, reception displays and wedding favors.
